

India's electronics exports hit a record of \$3.6 billion in December

India's electronics exports grew by 35.11 % to US\$3.58 billion in December 2024, marking the highest monthly shipment in two years. This growth reflects the strength of India's electronics manufacturing, supported by government initiatives, global demand, and enhanced domestic production. Consistent growth in electronics, engineering, and pharmaceutical exports continues, as the Union Commerce Ministry revealed.

Rupee slump sparks price hikes in electronics and EVs

As the Indian rupee weakens, nearing the 88 mark against the dollar, the electronics and EV sectors are raising prices to offset rising import costs. Companies like Haier and JVC TV India are increasing prices by up to 5 %. Despite reducing import dependence, essential EV components remain foreign-sourced, highlighting the need for greater localisation to protect against currency fluctuations.

BSNL turns around with ₹2.62 billion profit after 18 years

BSNL reported a ₹2.62 billion profit for Q3 of FY25, marking its first profitability since 2007. The company attributed success to innovation, network expansion, and cost

optimisation. With significant revenue growth in mobility, FTTH, and leased lines, BSNL expects 20% growth by the fiscal year-end. It also highlighted an increased focus on bettering customer experience.

Dixon Technologies pursues \$3 billion display fab in India

Dixon Technologies is planning a \$3 billion display fab in India and consulting a global tech firm, reportedly HKC. The project, supported by the India Semiconductor Mission 2.0, aims to produce mobile devices, IT hardware, and consumer electronics displays. Production is expected to begin next fiscal year, with Dixon negotiating a joint venture to enhance its value-addition capabilities.

An "AWESOME" Development Board from India?

- **Super Small:** 3 centimeters
- **Super Smart:** 3 processors
(Xtensa® Microprocessor + 2 ULP RISC-V Coprocessor)
- **Super Sensitive:** 5 Sensors
- **Super Connected:** Wifi & 10+ Interfaces
- **Super Flexible:** 30 GPIOs
- **Super Easy:** FPC + Dedicated Battery Connector
