

Calendar of Forthcoming Electronics Fairs/Exhibitions/Seminars/Events

Event, Date and Venue	Topics	Contact for details
NEPCON China 2025 APR 22-24, 2025 Shanghai World Expo Exhibition & Convention Centre, China	NEPCON China is a leading B2B event that converges global circuit board assembly and advanced solutions suppliers that serve the electronics, semiconductor, automotive, and new energy industries. The concurrent highly interactive events include conferences, competitions, award programs and business matchmaking.	Website: https://www.nepconchina.com/en-gb.html
EFY Expo Pune May 15-17, 2025 Auto Cluster Exhibition Centre, Pimpri, Pune	Electronics expo with conferences on automotive electronics, EVs, and Industry 4.0 (IIoT). Covers a wide range of electronics-related technologies, products, and topics, including electric drives, battery management systems, and IIoT solutions.	Website: https://www.efyexpo.com/PUNE
NEPCON ASIA 2025 October 28-30, 2025 Shenzhen Convention & Exhibition Centre	Asia's leading exhibition for electronics R&D, manufacturing and packaging technology. It consists of six shows specialised in essential areas for electronics manufacturing and R&D. The show has increased its value as an exhibition representing Asia's leading one-stop venue for all those involved in the electronics industry.	Website: https://www.nepconasia.com/en-gb.html
Open Source India November 5-6, 2025 NIMHANS Convention Centre, Bengaluru	The twenty-second edition of Open Source India (OSI) maintains its ethos of bringing various stakeholders under one roof. The team at Open Source For You magazine, in partnership with India's Open Source community and industry, come together to accelerate development and deployment of Open Source in India and beyond.	Website: https://www.opensourceindia.in
productronica November 18-21, 2025 Trade Fair Center Messe München, Germany	This event presents the entire range of technologies and solutions for electronics production and provides in-depth insights into the latest trends in practice-oriented forums and live demonstrations. Every two years, the world of electronics production meets in Munich.	Website: https://productronica.com/en

startups, and MSMEs. This will offer cost-effective AI computation under ₹100 per hour. The IndiaAI Mission focuses on ethical AI, with 18 agriculture, climate change, and education projects selected.

India gears up for ₹343 billion Critical Minerals Mission

The cabinet approved the National Critical Minerals Mission (NCMM) with a ₹343 billion outlay over seven years to secure resources like lithium. With ₹163 billion expenditure and ₹180 billion PSU investment, the mission aims to acquire 50 critical mines by 2031, support junior mining firms, and establish recycling facilities, processing parks, and skill development programmes.

Defence Ministry awards contracts worth ₹101.47 billion for advanced rockets

The Ministry of Defence has awarded ₹101.47 billion in contracts to Economic Explosive Limited and Munitions India Limited for advanced munitions to enhance the PINAKA rocket launch system and cutting-edge rockets. Additionally, ₹6.42 billion was allocated to Bharat Electronics Limited for 28 EON-51 systems

for the Indian Navy's offshore patrol vehicles and cadet training ships.

RRP ventures into fabless market with ASIC design acquisition

Maharashtra's RRP Semiconductor has acquired full intellectual property (IP) for ASIC design from European partners, marking its entry into the fabless semiconductor industry. The IP transfer covers full ASIC development, from design to tape-out, although the financial transaction remains undisclosed. This enables RRP to scale automotive chip production, with market projections growing to over \$100 million in two years.

Andhra Pradesh fast-tracks renewable projects worth ₹714 billion

Under its new clean energy policy, the Andhra Pradesh government has approved ₹714 billion worth of renewable energy projects. Major companies like Reliance, Tata Power, and John Cockerill are involved in solar and hydrogen

projects. The state targets 160GW capacity in renewable energy, attracting ₹10 trillion in investments and creating 750,000 jobs.

TP Solar wins contract for Maharashtra's solar-powered agriculture project

TP Solar, a division of Tata Power Renewable Energy, has secured a ₹4.55 billion contract from Maharashtra State Power Generation Company Limited (MSPGCL) to supply 300MWp of ALMM-certified solar modules for the state's solar-powered agriculture project in Maharashtra. The modules will be delivered this year as part of a 750MWp tender.

Jupiter International to set up solar cell and module manufacturing plant

Jupiter International has partnered with the Odisha government to set up a ₹20.05 billion photovoltaic solar cell and module manufacturing plant in Khordha. The plant will produce 4.2GW of solar cells and 3.6GW of modules annually. Additionally, Jupiter has secured a ₹30 million order from West Bengal Khadi and Village Industries Board (WBKVIB) for a rooftop solar project across 23 locations in West Bengal.

India introduces guidelines to promote EV battery swapping

The Ministry of Power has introduced the 2024 EV charging guidelines, promoting battery swapping to reduce wait times and encourage the 'battery as a service' model. The guidelines aim to streamline EV charging and swapping station
