

Centre rolls out ₹73 billion for rare earth magnet independence

The Ministry of Finance approved a ₹73 billion scheme to make India a major producer of rare earth magnets, up from an initial ₹13.45 billion proposal. The plan aims to produce 6000 metric tonnes annually by 2030, meeting projected domestic demand and boosting strategic self-reliance.

LG Electronics' ₹116 billion IPO fully subscribed within hours

LG Electronics India launched a ₹116.07 billion initial public offering (IPO) on 7 October 2025, structured entirely as an offer for sale by existing shareholders with no fresh equity issuance. The IPO drew strong demand from institutional and retail investors, receiving bids worth over ₹4 trillion. Anchor investors included BlackRock and the sovereign wealth funds of Singapore and Norway, reflecting high market confidence.

Foxconn bets big on Tamil Nadu with ₹150 billion investment

Foxconn will invest about ₹150 billion in Tamil Nadu to expand AI-driven manufacturing, R&D, and advanced electronics operations, creating 14,000 engineering jobs. The plan strengthens the company's presence across multiple state locations. A new 'Foxconn Desk' at Guidance Tamil Nadu will fast-track project execution. The move reinforces Tamil Nadu's manufacturing and innovation ambitions in South Asia.

Centre planning ₹55 billion boost for solar wafer manufacturing

The Indian government plans to allocate ₹55 billion from its ₹240 billion PLI scheme to boost domestic production of solar wafers and ingots, imported mainly from China. The move aims to create a self-reliant supply chain by 2028, generate jobs, reduce reliance on imports, and strengthen India's domestic clean energy sector.

Government unveils ₹20 billion plan for EV charging infrastructure

The Ministry of Heavy Industries has released guidelines to deploy public EV charging stations under the ₹109 billion PM E-DRIVE scheme, allocating ₹20 billion for nationwide infrastructure. Subsidies up to 100% will support installations across government, transport, and private locations. BHEL will implement and manage a unified charging hub. The plan aims to accelerate India's green mobility push.

Zelio E-Mobility IPO lists, gains 13.8% market

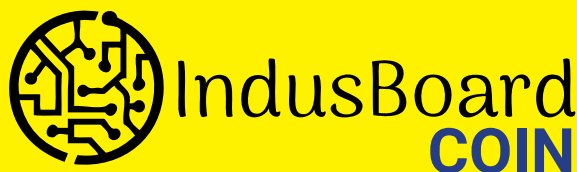

Zelio E-Mobility debuted on the BSE SME platform on 8 October 2025, listing at ₹154.9 per share, a 13.8% premium over its fixed ₹136 per share. The ₹780 million SME IPO, open from 30 September to 3 October, was 1.5 times subscribed, showing moderate investor interest. The Haryana-based EV maker produces two- and three-wheelers under Zelio and Tanga brands.

An "AWESOME" Development Board from India?

- **Super Small:** 3 centimeters
- **Super Smart:** 3 processors (Xtensa® Microprocessor + 2 ULP RISC-V Coprocessor)
- **Super Sensitive:** 5 Sensors
- **Super Connected:** Wifi & 10+ Interfaces
- **Super Flexible:** 30 GPIOs
- **Super Easy:** FPC + Dedicated Battery Connector
