Hind Rectifiers secures European base with €1 million BeLink buy

Hind Rectifiers has acquired French electronics and robotics firm BeLink Solutions for €1 million to expand its European presence in power electronics, robotics, and EMS. The deal includes BeLink's assets, IP, and contracts. A new subsidiary will be formed, with a total capital infusion of €2 million: €1 million from Hirect and €1 million via equity.

Ekkaa Electronics bags ₹1.08 billion to expand operations and R&D

Ekkaa Electronics, a Noida-based ODM for LED TVs, raised ₹1.08 billion in a Series-A round led by Mukul Mahavir Aggarwal, the Varun Daga Family, MAIQ Growth Scheme, Caprize Aurix, and other family offices. Funds will expand manufacturing, strengthen R&D, and invest in new tech. The company, with ₹10B revenue, targets an IPO by 2027.

India evaluates bids for ₹150 billion AMCA stealth fighter project

India is set to pick a partner for its ₹150 billion Advanced Medium Combat Aircraft (AMCA) project, marking a crucial step in the country's pursuit of indigenous fifth-generation stealth fighter capability. Bids have been submitted by major defence players, including Hindustan Aeronautics Limited (HAL), Larsen & Toubro in partnership with Bharat Electronics Limited, and Bharat Earth Movers Limited, collaborating with private firms.

NaMo Semiconductor lab to be established at IIT Bhubaneswar

Following government approval, the NaMo Semiconductor Laboratory will soon be set up at IIT Bhubaneswar, funded under the MPLAD scheme at ₹49.5 million. The lab will train students in chip design and fabrication, integrating with SiCRIC's infrastructure. Equipped with modern tools, it aims to boost India's semiconductor ecosystem, aligning with 'Make in India' and 'Design in India.'

Mission Sudarshan Chakra: 7000 radars and laser defence network unveiled

India is set to launch Mission Sudarshan Chakra, an ambitious air defence initiative featuring over 7000 radars,

DIY KIT: Agriculture IoT & AI

Want to create exciting IoT projects for agriculture use cases or agri-IoT projects?

This kit provides everything you need to create typical IoT for agriculture (aka agri IoT) projects.

KIT INCLUDES:

- Soil Sensor
- GSM Module
- Relay Module
- IndusBoard Coin

POWERED BY

IndusBoard
COIN

Super small sized development board that enables you to create solutions for many use-cases where small size is super important.

SPECIAL INTRO PRICE

₹2,149 (Inclusive of GST)
