electric vehicle. The development links the TVS iQube electric scooter with a customised TVS iQube Noise Smartwatch, designed to provide riders with real-time updates on key vehicle information. Users can access ride statistics, such as battery status, tyre pressure, range and safety alerts, directly on their wrists at a glance.

Hyundai to unveil India-designed EV and expand Pune plant

Hyundai Motor Company has announced plans to launch its first electric vehicle designed in India, while expanding capacity at its Pune plant. The move is part of the carmaker's global 2030 strategy that centres on electrification, hybrids, and large-scale investments. The portfolio will include over 18 hybrids and a full line-up of EVs.

Blue Energy Motors secures \$50 million to scale LNG and EV truck production

Blue Energy Motors has secured fresh funding, raising its total capital to US\$50 million. BEM currently has a manufacturing capacity of 10,000 trucks per year. The fresh funding will be instrumental in fully unlocking this capacity, accelerating production, expanding the development of LNG and EV heavy-duty trucks, and scaling the company's green mobility footprint across India.

iPhone's US exports drive 37% of Tata Electronics' revenue

Apple's strategy to shift iPhone manufacturing to India is paying off, with Tata Electronics emerging as a major supplier to the US market. Shipments to America generated nearly 37% of Tata Electronics' revenue in FY25, amounting to more than ₹231.12 billion. The shift reflects Apple's plan to reduce dependence on China and diversify production amid ongoing trade tensions.

Tesla Group and SRAM & MRAM partner to set up BESS giga factories in India

Battery energy storage systems manufacturer Tesla Group and global investment and technology firm SRAM & MRAM Group have signed a \$1 billion agreement to establish EV battery facilities in India and other countries. The companies announced plans to set up five gigafactories in India and an additional 15 facilities worldwide.

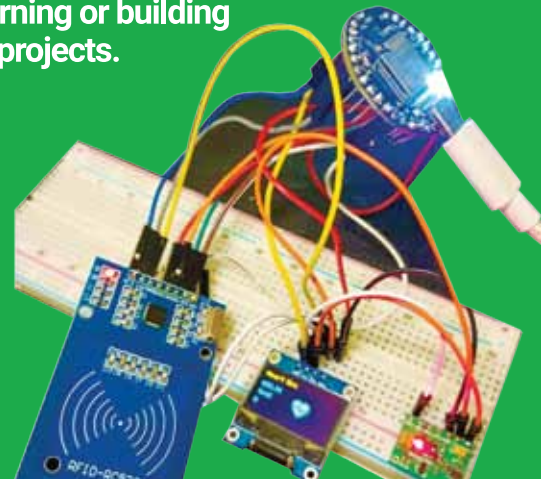

COEP Tech and Bajaj Auto to launch ₹130 million skill centre

College of Engineering, Pune, Technological University (COEP Tech) has partnered with Bajaj Auto Ltd to establish the Bajaj Engineering Skill Training (BEST) Centre. Bajaj Auto will invest ₹130 million to develop the BEST Centre. The initiative will offer courses as open electives across all engineering branches. The university aims to strengthen industry-academia linkages and deliver future-ready engineering education.

DIY KIT: NFC, RFID, IoT & Embedded Systems

Want to learn and master NFC and RFID technology along with an IoT-enabled embedded system?

This kit includes all the essentials to start learning or building RFID/NFC projects.

POWERED BY

IndusBoard
COIN

Super small sized development board that enables you to create solutions for many use-cases where small size is super important.

SPECIAL INTRO PRICE

₹1,999 (Inclusive of GST)
