

**RAJGURU ELECTRONICS
(I) PVT. LTD.**

FEATURES

- 24 GHz millimetre-wave radar chip
- Distance, angle, speed detection
- Tracks multiple moving targets in real-time
- Low-cost MCU + intelligent firmware
- Simple serial output (plug & play)

Let's meet

You are cordially invited to join us at

17 18 19 September, 2025

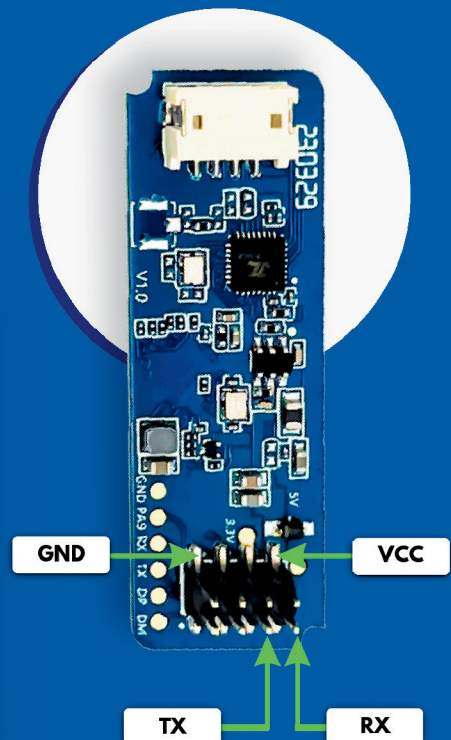

Bangalore International Exhibition Centre

HALL 5 A85

Human MOTION Tracking

HLK-LD2450 Radar Sensor

HLK-LD2450 radar sensor can detect and track human motion, position, and trajectory in real-time. It measures distance, angle, and speed, making it ideal for smart homes, offices, and automation projects.
