

These are digital gates, Sir. Install them one after another for an AND gate, and side by side for an OR gate.

You've been missing so many meals since you started working on this 'daily meal reminder' project!

Congratulations on completing the week-long workshop. You have now mastered 'thinking outside the box!'

Artificial satellites, artificial flavour, artificial intelligence—they're all old. Time to start on artificial AI!

Our economy is so much better now! The petty thefts have now been replaced by major cybercrimes.

These computers consume a few terawatt-hours to study the impact of such studies on the environment!
