

Tech Conclaves that Rocked Four Cities

MOUSER
INDIA
TECHNICAL
ROADSHOW 2025

An event that brings the best engineering minds together, highlights latest tech trends and showcases cutting edge electronics. That's what Mouser Electronics conducted, rather four of them, across Pune, Ahmedabad, Chennai, and Bengaluru. For those who missed, here are a few glimpses ...

Hrishikesh Kamat,
Shalaka Connected Devices LLP

Mohammed Vaseem,
Mouser Electronics

Q&A session

Katsuyuki
"Kay" Kayahara,
Taiyo Yuden

Akinobu Katsura,
Taiyo Yuden

Sathish Sivasubramanian,
Molex

Naresh Rana, Analog Devices

The Molex booth

S. Seshachalam, Bel Fuse India

The Packed Hall

PUNE

PUNE: WHERE ENGINEERS DROVE TOMORROW'S MOBILITY TODAY

On 20 June 2025, the first stop for Mouser Electronics' 4-city roadshow was Pune, at Four Points by Sheraton, Viman Nagar. Under the theme Pioneering Automotive Electronics Innovations, it delved into EV powertrains, ADAS, zonal architectures, thermal management, and functional safety. The sessions went beyond theory, delivering hands-on insights into using the latest components, design tools, and global standards, such as ISO 26262. For Pune's engineering community, this was a high-octane pit stop on the road to smarter, safer, and more efficient mobility systems.

SESSION TITLE	SPEAKER
Keynote Address	Hrishikesh Kamat
Innovation in Automotive Electronics	Sathish Sivasubramanian
Supporting Automotive Innovation	Katsuyuki "Kay" Kayahara, Akinobu Katsura
The Future of EVs in India	S. Seshachalam
Technologies for Automotive Electrification and Connectivity	Naresh Rana
Open House Q&A & Vote of Thanks
