

Penumaka Shushil Kumar, Samtec India

Clinton Jose, Mouser Electronics

Rushabh Champaneri, Iotlive

The Delegates

Sameer Nivangune, Silicon Labs

Registration area

Ashoka C, Molex

AHMEDABAD

AHMEDABAD TUNED INTO THE FUTURE OF CONNECTIVITY

Communication technology took centre stage on 27 June 2025, when Mouser Electronics' 4-city roadshow reached its second destination: Hyatt, Ahmedabad. With the theme Connecting the Future: Advances in RF, Wireless & Wired Technologies, it was a front-row pass for the city's tech community to the protocols and components shaping the world of 5G, LPWANs, mesh networks, and high-speed Ethernet. The sessions showcased how to design low-power, high-performance systems for IoT, industrial, and consumer applications.

SESSION TITLE	SPEAKER
Powering Connectivity Without Power: Battery-Free Bluetooth	Rushabh Champaneri
RF Technologies – Future of Connectivity Solutions	Ashoka C
Next-Gen SerDes Testing and Validation Using High-Precision RF Interconnects	Penumaka Shushil Kumar
The Future is Wireless	Sameer Nivangune
Open House Q&A & Vote of Thanks
