CHENNAI

CHENNAI DREW A ROADMAP OF SMART MANUFACTURING

At its third stop on 11 July 2025, at Hyatt Regency, Chennai, Mouser Electronics' 4-city roadshow focused on the theme Building the Future with Efficient Manufacturing. Highlighting the next wave of industrial automation, this was a masterclass in future-proofing industrial systems for the city's techies. Spanning edge computing, industrial machine vision, and advanced automation, the event highlighted intelligent design practices and the latest communication protocols for production optimisation and system reliability.

SESSION TITLE	SPEAKER
From Smart Design to Smart Factory	Srinivas Parikshith
Connectivity Solutions – Next Gen Connectivity for Smart Manufacturing	P. K. Banik, N. Srinivas Kumar
Technologies to Improve Power Efficiency and Reliability	Naresh Rana
Open House Q&A & Vote of Thanks	

P. K. Banik, Phoenix Contact India
