Surpassing China, India Becomes The Leading Smartphone Supplier To US

India emerged as the largest supplier of smartphones shipped to the US in Q2 2025, with a substantial 44% share, up from 13% in Q2 2024. Shipments from India surged 240% YoY, while China's share plunged from 61% to just 25%. This shift reflects a major supply chain realignment, with India now leading the way, surpassing both China and Vietnam in shipments.

India's Mobile Manufacturing Grows 28-Fold In 10 Years

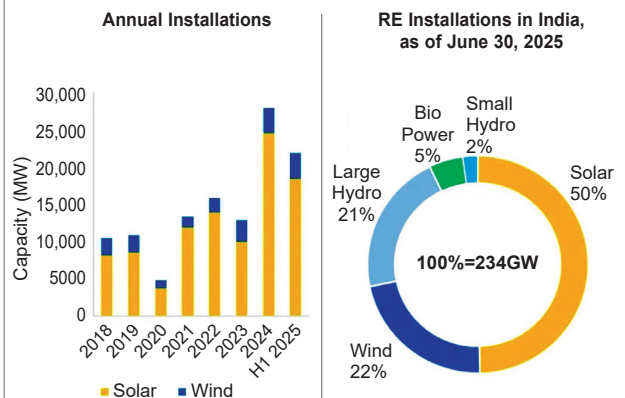

India's mobile phone manufacturing has skyrocketed 28-fold, from ₹180 billion in 2014-15 to ₹5.45 trillion in 2024-25. Exports have grown 127 times, from ₹15 billion to ₹2 trillion. Mobile production units surged from 2 to 300, while imports plummeted from 75% to 0.02% of demand. The PLI schemes and reforms have helped establish India as the world's second-largest mobile manufacturer.

Details	2014-15	2024-25	Remarks
Production of Electronic Goods (₹)	1.9 Trillion	11.3 Trillion	Increased 6 Times
Export of Electronics Goods (₹)	380 Billion	3.27 Trillion	Increased 8 Times
Mobile Manufacturing Units	2	300	Increased 150 Times
Production of Mobile Phones (₹)	180 Billion	5.45 Trillion	Increased 28 Times
Export of Mobile Phones (₹)	15 Billion	2 Trillion	Increased 127 Times
Mobile Phones Imported (Units)	75% of the Total Demand	0.02% of the Total Demand	—

With A Record 21.9GW Renewable Capacity Added In H1 2025, India Powers Ahead

Growing 56% YoY, India added a milestone 21.9GW of new solar and wind capacity in H1 2025, taking total renewables to 234GW (solar 50%, wind 22%). Solar rose 51.6% (14.3GW utility-scale, 3.2GW rooftop), while wind jumped 82% (3.5GW). Gujarat, Rajasthan, and Maharashtra led the growth. Analysts expect another 16-17GW in 2025, marking a landmark year.
