PCBs, optoelectronics, and displays. Centred on cluster development in five cities, giants like Dixon and Syrma SGS are among the beneficiaries. Syrma plans a ₹18 billion PCB facility with South Korea's Shinhyup under this framework.

Reliance plots record ₹522 billion Jio IPO next year, says reports

Reliance Industries is considering a ₹522 billion IPO for Jio Infocomm, which would involve selling a 5% stake and surpassing Hyundai India's record listing. Tentatively slated for 2026, the move could value Jio above \$100 billion, offer exits to Meta and Google, and hinge on AGM updates, regulatory tweaks, and market conditions, potentially reshaping India's IPO landscape.

Kaynes Circuit India eyes ₹49.95 billion investment in Tamil Nadu

Kaynes Circuits will invest ₹49.95 billion in a Thoothukudi electronics manufacturing plant near Vinfast's proposed EV unit, producing advanced PCBs, camera modules, and wire harnesses. Expected to create 4700 jobs, the facility aligns with PLI goals, boosts component-level production, and supports Tamil Nadu's bid to become an electronics hub, potentially spurring a broader local supply ecosystem.

Aditya Infotech's ₹13 billion IPO scores 61% listing gain

Better known by its brand name CP Plus, Aditya Infotech's ₹13 billion IPO, backed by ₹5.82 billion from anchor investors, launched at ₹675/share, closed July 31. Subscribed 106x, it listed on August 5 at ~₹1015-1018; a 50% plus debut gain. Shares soared further, ending up nearly 61% above the issue price, marking India's strongest IPO debut of 2025.

Schneider to acquire 35% stake in Indian JV for \$6.4 billion

Schneider Electric will acquire Temasek's remaining 35% stake in Schneider Electric India Pvt Ltd for \$6.4 billion, making it the sole owner. The deal, reportedly the largest acquisition of 2025 so far, strengthens India's role in Schneider's global supply chain. Plans include tripling local manufacturing, targeting double-digit growth, and

Can a Board from India Compete with Arduino Uno & Raspberry Pi RP2040?

"YES, we can!"

- **Super Small:** 3 centimeters
- **Super Smart:** 3 processors (Xtensa® Microprocessor + 2 ULP RISC-V Coprocessor)
- **Super Sensitive:** 5 Sensors
- **Super Connected:** Wifi & 10+ Interfaces
- **Super Flexible:** 30 GPIOs
- **Super Easy:** FPC + Dedicated Battery Connector
