

Exemptions for government R&D units are in effect until March 2028. The move, covering four equipment groups, also simplifies compliance and encourages innovation in specialised telecom products.

ECMS application deadline extended to September 30

India has extended the deadline for the Electronics Component Manufacturing Scheme (ECMS) application to 30 September 2025, aiming to boost domestic production of non-semiconductor components. With ₹75-₹80 billion in proposals so far, the ₹229.19 billion scheme targets major investments, jobs, and production gains, despite supply risks from China's rare earth export curbs impacting EVs, electronics, and industrial hardware.

Aimtron plans a greenfield plant with ₹1 billion funding

Aimtron Electronics will invest ₹1 billion, raised via convertible warrants, to build a three-acre greenfield plant with five SMT lines and full assembly units. Targeting ₹10 billion revenue, the facility will boost capacity, speed, and global competitiveness. Aligned with Make in India, it serves the aerospace, defence, telecom, IoT, and industrial automation sectors.

Tata Electronics and Bosch partner to boost India's chip ambitions

Tata Electronics has partnered with Germany's Robert Bosch GmbH to advance chip packaging, manufacturing, and automotive electronics in India. The MoU supports Tata's ₹270 billion OSAT plant in Assam and ₹910 billion fab in Gujarat under ISM. The alliance will also explore automotive EMS opportunities, bolstering domestic semiconductor capacity and reducing import dependence.

Advent and TPG in final race for Tessolve, valued at \$450 million

Advent International and TPG Growth are leading contenders to acquire up to 30% of Tessolve, Hero Electronix's semiconductor arm, valuing it at approximately \$450 million. The \$120-\$150 million deal will fund global expansion, especially in AI, automotive, industrial chips, and data centres. Tessolve recently acquired Germany's Dream Chip Technologies to boost its European presence.

Ericsson reports 32% fall in Q2 2025 India sales

Ericsson's India sales fell 32.5% in Q2 2025 to US\$230 million, as telecom operators delayed network investments. India's share of global sales dropped to 4% from 6% a year ago. Globally, sales declined 6% to SEK 56.1 billion. Despite the slump, Ericsson secured a multi-year contract with Bharti Airtel for network operations in India.

A Unique Dev Board which is perfect for projects which require SMALL SIZE & CONNECTIVITY

Introducing the

Priced Shockingly at ₹1999 + GST i.e. ₹2,358
