

63.3 MATCH THE BEGINNINGS OF THE SENTENCES TO THE CORRECT ENDINGS

I have a few recommendations

are the ones about spies.

① They bought me a signed copy,

there are some in the box over there.

② I think the most engrossing novels

make sure it's one with regular meetings.

③ If you want to join a book club,

if you want some.

④ I know you want to buy a new car,

but the one we have is only a year old.

⑤ If you need a plastic bag,

but I already had one.

63.4 FILL IN THE GAPS USING "ONE," "ONES," OR "SOME"

BookCon review notes

Black Glasses is Martin Owens' fourth book in this series. Like the third book, this one is all about the brilliant detective Amanda Brook. Unlike the other ones in the series though, this time her personal life starts falling apart. Excellent plot as usual.

I have read some boring books in my time, but Sara Umborne's Pink Tree is the duller one ever. Sadly, I can't tell you much about the book as I gave up after 20 pages.

Little Water Princess is a fabulous book for little children, or even older ones! There are few words, but the illustrations are beautiful. Lots of the pictures pop up, but ones are 2D. A lovely gift idea.

There are endless books about cooking pasta, but How to Cook Pasta by Daniela Capril is the best one on the market today.
