Alex and Sue are both chefs. She owns a café and he works in a famous restaurant. Her cooking is **just as good as** his, maybe even better, although his cooking is mostly savory and she has a sweet tooth. Unfortunately, just because her food costs **half as much as** his, some people do not have as **high** an opinion of her skills. Her café is seen as somewhere with **low** prices to grab a bite to eat, not somewhere to wine and dine. Sue says this is a small price to pay for owning her own business. Some people just like to go out of their way to pay **twice as much as** they should for a three-course meal in Alex's restaurant, rather than enjoy a delicious piece of cake or pastry in Sue's café.
