

How the course works

English for Everyone is designed for people who want to teach themselves the English language. The Business English edition covers essential English phrases and constructions for a wide range of common business scenarios.

Unlike other courses, *English for Everyone* uses images and graphics in all its learning and practice, to help you understand and remember as easily as possible. The best way to learn is to work through the book in order, making full use of the audio available on the website and app. Turn to the practice book at the end of each unit to reinforce your learning with additional exercises.

Unit number The book is divided into units. Each practice book unit tests the language taught in the course book unit with the same number.

Practice points Every unit begins with a summary of the key practice points.

Modules Each unit is broken down into modules, which should be done in order. You can take a break from learning after completing any module.
