Question tags are added to the end of a question, usually to ask someone to agree with you. A positive statement is followed by a negative question tag, and vice versa.

Short questions are used to show that someone is listening to the speaker. They are positive for positive statements and negative for negative statements.

Yes, I go skiing twice a year.

Do you?

Closed questions can only be answered with "yes" or "no." When they are spoken, the voice often rises at the end of the question.

Open questions are formed by adding question words to the start of the question. They can be answered in many different ways. The tone of the speaker's voice usually falls at the end of open questions.
