

53 Environmental concerns

53.1 USEFUL EXPRESSIONS

Factory emissions are a cause of **global warming**.

global warming

[the increase in the Earth's temperature]

Climate change is a huge threat to many animals.

climate change

[changes in the Earth's weather patterns]

Carbon dioxide is one of the best-known **greenhouse gases**.

greenhouse gases

[gases that cause the greenhouse effect, heating up the Earth]

Fossil fuels such as coal and oil produce carbon dioxide.

fossil fuels

[fuels based on oil, coal, and gas]

This space rocket **consumes** a lot of fuel.

to consume

[to use a supply of something, such as fuel or energy]

You can **reduce your carbon footprint** by flying less.

to reduce your carbon footprint

[to lower the level of carbon dioxide produced by your actions]

We need to **tackle pollution** in our rivers.

to tackle pollution

[to deal with the problem of pollution]

We can reduce pollution by using more types of **alternative energy**.

alternative energy

[energy that does not use fossil fuels]

We must use more **green energy sources**, like wind and solar.

green energy sources

[types of energy that do not damage the environment]

It can be much cheaper to use **renewable energy**.

renewable energy

[energy from sources that do not run out]
